

CAPABILITY STATEMENT

Field-to-finish geospatial data, UAS documentation and technical production support.

Kyle Wise, Founder & Manager | kwise@wisegeospatial.com | (210) 902-0888 | wise-geospatial.com

Wise Geospatial LLC provides defined field-to-office data packages for construction, infrastructure, property and public-sector project teams. We turn field observations, aerial imagery and spatial data into organized, decision-ready deliverables.

CORE CAPABILITIES

- UAS mapping and site documentation: aerial progress, orthomosaics, 3D models and repeatable site records.
- Photogrammetry, LiDAR and point-cloud production: cleanup, classification, terrain models, surfaces and exports.
- Construction measurement support: stockpiles, surface comparisons, cross-sections, quantity exhibits and progress documentation.
- GIS, CAD and asset-data production: feature extraction, conversion, drafting, organization and quality review.
- Property, facility, corridor and right-of-way documentation with structured imagery, maps and technical project files.

WHY WISE

- FAA Part 107 Remote Pilot; founder experience supporting 100+ UAS/drone projects.
- Construction-fluent technical support across quantities, material placement, progress/as-built documentation and QA/QC.
- Owner-led scoping, processing, review and delivery with clear inputs, exclusions and acceptance expectations.
- South and Central Texas field support with remote production capacity for defined data-processing work packages.
